

FUEL PROOF GUARANTEESM

The Fuel Proof GuaranteeSM

- First of its kind in industry – proven mpg gain
- Products combine to increase both driver and vehicle efficiency
- Customer demonstration (baseline/demo)
- Requires 20 model-year 2000 or newer vehicles for demo
- Consistent types of routes and drivers
- Mandatory oil sampling and record-keeping
- Lubricants Only Guarantee 1.6% fuel economy increase
- Lubricants and tiwi driver mentoring Guarantee up to 4% fuel economy increase
- Limited guarantee – fleets completing customer demonstration will see mpg increase or will receive reimbursement of all incremental costs

Testing And Validation “Tested On The Track, Proven On The Road”

- Testing at two independent facilities (Texas and Ohio)
- SAE J1321 protocol – only test that qualifies for EPA’s SmartWaySM certification
- Results validated with multiple fleets and over 100 vehicles – Testing and validation to 95% confidence interval
